Objective

To promote the sport of bass fishing with a positive attitude, professionalism and integrity. To create partnerships with exceptional companies in order to endorse and gain exposure for the products I use and trust.

Personal

I was born and raised in North Carolina just minutes away from renowned bass fishing locations like Lake Gaston and Buggs Island Reservoir. I am self employed and in Roanoke Rapids with my wife Barbara. I started bass fishing at age five and started tournament fishing at age sixteen. I spend countless days per year on the water. I enjoy travelling the country in search of catching bass, meeting new people and exchanging bass fishing knowledge.
